**USE OF VARIOUS INSTRUCTIONAL METHODS AND  
PEDAGOGICAL INITIATIVES**

**Subject:** Software Engineering & Project Management

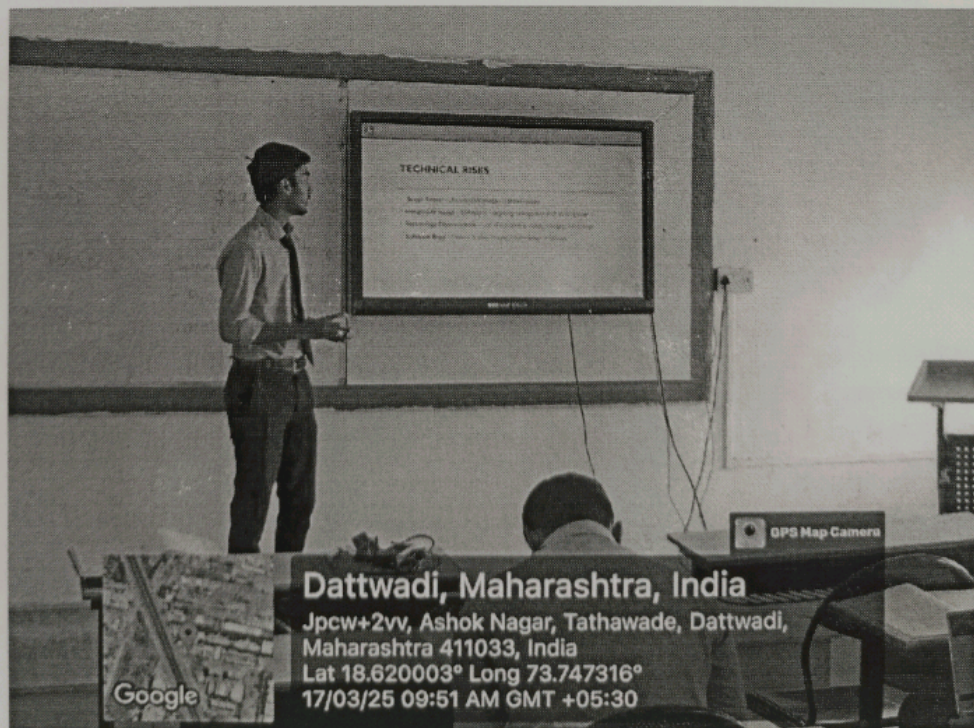

**Class:** T.Y. BTech E&TC

**Topic:** Case Study Presentation

**NAME OF THE ACTIVITY: Presentation**

**Concept:** Multiple domain of the Software Engineering & Project Management -  
Case Study

- I. **Objective( Goal):** Demonstrate Practical Application of Theoretical Concepts
- II. **Appropriateness (Relevance of Selected Method):** This method helps students to
  - a) Show how Software Engineering & Project Management are applied in real-world scenarios.
  - B) Encourage critical thinking and problem solving .
  - c) Improve the communication and presentation skills.
  - D) Motivate the students for group discussion, team work.
- III. **Effective Presentation (Implementation Details):**

#### IV. Results (Impact):

- A. This activity inculcates the habit of self learning among students and relate their coursework to current trends, technologies, and professional practices.
- B. Encouraged students to get theory knowledge with help of case study.

#### A. Reproducibility and Reusability by Other Scholars for Further Development

Sr.No	Innovation Used by	Details of User	Purpose of Reproducibility and Reusability
1	Dr. B.D. Jadhav	COE, RSCOE, JSPM.	- Encourage critical thinking problem-solving skills. - Promote group discussion, peer learning.

#### B. PEER REVIEW AND CRITIQUE

**Category:** Internal/External/Interdepartmental

**Score: (1:Least 2: Moderate 3:Highly)**

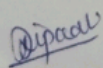

**Question 1.** Is this Innovative Teaching and Learning Methodology useful during content delivery?

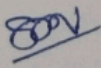

**Question 2.** Did this innovation increase student motivation or participation?

**Question 3.** Will it show improvement in student learning?

**Question 4.** Suggestions for improvement in future iterations.

Category	Name of Peer	Organization	Q.1	Q.2	Q.3	Q. 4 Suggestion/Critique
Internal	Dr. B.D. Jadhav	JSPM, RSCOE	2	3	3	- Involved more real time case studies
